

# Managed Services

Organizations are under more pressure than ever to implement and manage complex technology while simultaneously dealing with increasing budget challenges. Succeeding in this environment often means choosing a partner to help you maximize your Information Technology investments in the most cost effective and reliable manner possible.

MMY offers several managed services designed to help customers with their IT staffing and application management needs. Our vendor-neutral offerings incorporate best practices, skilled resources, and industry specific experience. We understand that consistent, reliable delivery of services is key to the success of our customers. Solutions are designed to be both flexible and comprehensive and can be adapted to a wide range of needs.

### Capabilities

- Application Management
- Legacy Application Support (LAS)
- Reporting on Demand
- Staff Augmentation
- Technology Assessments

### Benefits

Using a proven managed service provider allows an organization to focus on the more strategic or tactical goals and leaves some operational functions to a third party. It also affords the organization to utilize staff more efficiently while continuing to provide outstanding service to its customers.

### We've Done IT Before
