

Technology Planning

The growing complexity of healthcare technology solutions available today demands a new approach towards integrating that infrastructure into the healthcare facilities of tomorrow. Our approach is to help our clients achieve convergence between these disparate solutions in delivering quality patient health care. MMY's Facility Technology Services professionals provide unbiased and objective assistance in IT planning consistent with an organization's business goals.

Capabilities

- Vendor evaluations
- Review of systems and infrastructure for interoperability
- Management of the technology selection process
- Collection of client requirements
- Evaluation of emerging technologies
- Contract negotiation and procurement management
- Pre-implementation planning

Benefits

We provide our clients with guidance through vendor selection, procurement, and implementation planning remaining independent of vendor alliances. We can help you craft the appropriate solution that is specific to your project's operational goals and budget. You can expect the following:

- Deep expertise
- Diverse skill sets
- No nonsense talent that fits with your team
- The ability to keep timelines on track

We've Done IT Before

The MMY team has led multiple technology planning projects for clients. Our consultants work in a collaborative way with our customers to develop the appropriate technology solutions that match your enterprise technology roadmap and future strategic vision.
