

As health systems implement new EHR / ERP software the requirements to keep the existing operations running without interruption can prove to be a challenge. The benefits need to be shared and understood organizationally. In order to speed implementation, it is beneficial to bring in a proven partner.

The complexity of the software, the impact on operations and the impact on workflow can prove daunting on any organization. The MMY team brings experience in all phases of the implementation; from analysis and design, implementation and post-implementation support. We have participated and/or led multiple implementations. MMY has worked in all areas of the healthcare environment and knows the pain points you will experience. Our experience stretches across multiple vendors, including but not limited to the following; Cerner, Epic AllScripts, McKesson, AthenaHealth, GE, Lawson, Peoplesoft, etc.,

### **Capabilities**

- Project and Program Management
- Workflow Analysis
- Current and Future State, Gap Analysis
- All phases of the implementation
  - Phase 0
  - Initiation, Design
  - Build
  - Testing and Training
  - Go-Live Support
  - Post Go-Live Support

### **Benefits**

By allowing a proven partner to assist you, the burden is relieved from your staff. We have a great deal of experience around all implementation activities. MMY will bring proven methodologies and templates while working closely with your team to ensure success.

### **We've Done IT Before**

MMY has assisted several major clients with the conversion of their data including manual (from paper charts to Allscripts), legacy system data (Allscripts to Epic), and more. Visit [mmyconsulting.com](http://mmyconsulting.com) to engage with an experienced staff member and learn how this valuable service can help you quickly and effectively transfer patient data.
